SUMMARY

- Specialized in React.js and Next.js for building responsive, high-performance web applications.
- Developed reusable React components, implemented hooks, and optimized apps with SSR and SSG.
- Proficient in HTML, CSS, JavaScript, and Tailwind CSS for clean and responsive layouts.
- Integrated animations and interactivity using Swiper.js, GSAP, and Masonry Grid.
- Built portfolio websites for small businesses with SEO-friendly design and form handling.
- Currently learning backend development to transition into a Full-Stack Developer.

WORK EXPERIENCE

Oro Media Lab. OCT 2023 - JUNE 2025
Front-End Developer

- - Developed responsive websites using HTML, CSS, JavaScript, and Next.js.- Used Tailwind CSS to create clean and
- mobile-friendly designs.- Helped turn design ideas into working websites that look good on all screen sizes.-
- Worked with teammates to connect front-end code with backend systems.- Built web pages that load fast and work
- well across different browsers.- Made updates to WordPress websites using ACF and Elementor.- Learned new tools
- and followed good coding practices while working in a team.

PROJECTS

Mobile Repair Business Website

- Built using Next.js and Tailwind CSS.- Created a responsive layout with working contact form to collect user info.
- Used Swiper.js for image sliders and animations to enhance user experience.

Interior Designer Portfolio

- Next.js project with GSAP animations and Masonry Grid layout.
- Showcases past projects and includes a contact form.

- Designed to be clean, responsive, and visually attractive.

Airport Management System (Final Year Project)

- Developed a system to manage flight schedules, check-ins, and passenger data.-
Learned data handling and system
flow during project implementation.
- Built using [Python,Django].
